NEWS RELEASE

County Employees Achieve Safety Milestone

Picton, ON – County of Prince Edward employees achieved an exciting safety milestone on August 7, 2008 by working one full year without any Lost Time Injuries. Employees have been committed to improving the safety culture in their workplace and place a high priority on their own personal safety and that of their coworkers to reach the goal of “Zero Injuries”.

“Our employees deserve recognition and congratulations for their hard work and efforts in achieving zero lost time injuries in the past year,” said CAO Richard Shannon. “We are working with our Health and Safety committees to develop a workplace culture that provides not only a safe place to work, but a place to live that puts value on health and well being of our municipal employees and indeed our community.”

“Council has made Health and Safety of our employees a high priority,” said Mayor Leo P. Finnegan. “Kevin Courneyea, our Health and Safety Officer, is working with Council, administration and the committees to ensure that accidents are reduced and hopefully eliminated. This accomplishment is a team effort, and I congratulate everyone involved.”

The County of Prince Edward Human Resources Department continues to work with all employees to focus not only on health and safety in the workplace, but health and wellness at home and in the community.
