

\$100,000 Donation to County of Prince Edward

In 2006 the County of Prince Edward received an anonymous donation of \$100,000. It was specified that the donation was a contribution to open and accountable local government and to assist in the delivery of services in a cost effective and environmentally conscious manner through the purchase of 'state of the art' electronic communication system for the public meetings rooms of Shire Hall. The donor is a resident of the County of Prince Edward.

As a result of this donation a new audio/visual system is installed in the Council Chambers and Committee Room. It provides for enhanced presentation opportunities for both rooms as well as providing the opportunity for overflow audiences to view Council Chambers proceedings from the Committee Room.

The County and its citizens are indebted to this generous and community minded individual.
