NEWS RELEASE

Update - Water Main Break Main Street Picton

Picton, ON - At 4:00 p.m. today, the Chief Building Official for the County of Prince Edward announced that the North American Building at 303-309 Main Street has been released for occupancy.

A water main break yesterday that impacted on the foundation of the building resulted in residents being evacuated until it could be determined that the building structure was safe. Following some remedial work required in the basement, structural engineers for the municipality and the building owner conducted an analysis of the foundation and structural integrity of the building and pronounced it safe.
